Re: In the Matter of the Application of Great River Energy and Meeker Energy for a Route Permit for the Kimball 115 kV Transmission Line and Substation in Stearns and Meeker Counties, Minnesota

MPUC Docket No. ET2, E121/TL-26-182

Dear Ms. Bergman:

Great River Energy and Meeker Energy (together, the Applicants) are applying for a Route Permit to construct the Kimball 115 kilovolt Transmission Line and Substation (Project) in Stearns and Meeker Counties, Minnesota, pursuant to the Standard Review Process set forth under Minn. Stat. § 216I.07.

Enclosed for filing, please find:

1. Application of Great River Energy and Meeker Energy for a Route Permit and Environmental Assessment for the Project, including Public Appendices A-K;
2. NONPUBLIC Appendix D; and
3. Certificate of Service.

Applicants have designated portions of Appendix D as NONPUBLIC DATA—NOT FOR PUBLIC DISCLOSURE because it contains sensitive cultural resource information. The Minnesota State Historic Preservation Office Manual for Archaeological Projects in Minnesota provides for restricted access to sensitive cultural resource information. Given the need to include nonpublic information, Applicants have prepared and are electronically filing both NONPUBLIC and public versions of Appendix D.

The documents referenced above have also been e-filed today through www.edockets.state.mn.us. Application filing fees were previously sent under separate cover.

A copy of this filing is also being served upon the persons on the Official Service List of record on file with the Minnesota Public Utilities Commission. Please let me know if you have any questions regarding this filing.

Ms. Sasha Bergman
